CONGRATULATIONS NEW AMBASSADOR!

CRISTINA GUERRA
DALLAS, TX

GENERATING DREAMERS

I met JAFRA in Mexico when I was 15 years old and was drawn to the company because people love its products. We all have responsibilities to meet and what better way to be able to do so than through personal independence.

So in the end what inspired me to become an Ambassador was my love for motivating people. I'm taking on more responsibility, I want to inspire 10 Directors and boost Rosalinda Gonzalez's groups.

What inspires me to keep going is that I like motivating people, I see a lot of need among my people and I want to educate them and support them. I have 3 meetings a week and the best reward is to see my Team excel. On Mondays we go over the Consultant Guide, we do 9 steps to becoming an Ambassador, we talk about time management and Thursdays they read a sales book by Bryan Tracy in Spanish. We also talk about having ethics and a good image.

My advice to new Consultants that are joining JAFRA: have clear goals; get to know your company and career. Prepare well with all the material that's available. For me, having received the Jan & Frank Day Award is a reminder of my own values.

*Ambassador, the most prestigious title in JAFRA is honored with very special rewards like the Ambassador Pin, Movado Watch and The Ambassador Mercedes-Benz® Car Program!

Oh, the Places You'll Go. Take Your Business With You!

ENJOY SUMMER VACATION *while growing your business*

As an independent business owner, you deserve a vacation just like everyone else! That's another beautiful thing about JAFRA... You can take your business anywhere! In fact, a vacation is an opportunity to grow your business by meeting new Clients and sponsoring New Consultants.

Think about it: You could pick up new Clients for life, and even build a Team in a whole different part of the country. Talk about expanding your business!

Here are some tips for turning your vacation into a working vacation!

Pack lots of Catalogs, Seasonal Brochures, and Sponsoring Pamphlets! Include your contact information on every copy and hand them out to everyone you meet.

Let the products do the talking! Use JAFRA Sun Care products at the pool or at the beach. Keep your favorite JAFRA fragrance in your tote so when someone compliments your scent, you can share it with them.

Keep these ideas in mind on summer vacation, and you could earn enough for a fall getaway!

Carry a JAFRA tote everywhere! It's free advertising and the summer-perfect designs will get you and your business noticed.

NEW! BOTANICAL EXPERTISE BRAND

Tell us about some of the key ingredients that make this brand so special.

What makes this line so unique and exclusive to JAFRA is the Vitazon Active Complex. Each product in the Botanical Expertise line contains this Vitazon Active Blend; it's a special blend of essential vitamins, Amazonian oils & butters, and hydrolyzed vegetable proteins that help to improve hair strength, health, shine and manageability. Additionally, the products also contain JAFRA's unique blend of essential Vitamins – E, C, B2, B5, and B6. These vitamins help moisturize hair and help minimize the appearance of dry, brittle hair.

What are the other major selling points to share with Clients?

1. Increases hair shine, sparkle and bounce.
2. Improves manageability and smoothness.
3. Conditions hair and scalp.
4. Boosts hair moisture levels.
5. Packed with rich antioxidants.

What is the difference between botanical and natural?

Botany is the scientific study of plants. The term 'botanical' refers to ingredients derived from plants. In this instance, the terms 'botanical' and 'natural' are synonymous.

In fact, almost every single JAFRA product has some form of a natural ingredient in it depending on the product. As technology evolves we continue to use more and more natural ingredients. The entire Botanical Expertise collection is inspired by nature with scientific validation of performance.

Did you know: Every JAFRA product falls into one of

4 CATEGORIES
 within our Product Portfolio:

**FRAGRANCE,
 COLOR,
 SKIN CARE OR
 TOILETRIES.**

In the months to come, you'll see an increase in the number of products that live in our Toiletries category—and this is exciting news for you and your business! President of Worldwide Marketing Cosmetics Portfolio Barbara Roll explains why:

"Toiletry products are door openers to JAFRA. They're accessible to everyone, and they fulfill basic needs that most everyone has. For someone who knows nothing about JAFRA and isn't ready to invest in higher-priced products, this is a great category for them to explore."

So, share from our expanding Toiletries category with our new brands and your existing favorites. Giving focus to these products that meet daily needs will provide your Clients, new and existing, with even more reasons to become loyalists to JAFRA, from head to toe!

Meet the Face of JAFRA for July Martha Villegas

I first used JAFRA skin care products in Mexico, and later found a Consultant in the US. She invited me to a Party, where I learned about the JAFRA opportunity and joined JAFRA as a Consultant.

JAFRA has taught me how to encourage people to believe they can be successful. I enjoy working with people; and helping them build their businesses along with their self-esteem. I also value the fact that I can run a business and care for my daughter, who has special needs. I am so lucky to be able to do both!

Get to know another Face of JAFRA in the August ACTION!

Royal Jelly Milk Balm Advanced

The first time I tried Royal Jelly Milk Balm Advanced, I fell in love with it! It makes my skin look gorgeous and feel so soft and moisturized... I tell my Clients it's like finding the fountain of youth!

Tips FROM THE TOP

With Idalia Espinoza, Manager "My goal is to be an Ambassador."

Idalia manages to have high sales by working her business every day. As she hands out her business card, she is handing out the opportunity. "I don't share just one product, I share several so there's always one that is liked." Idalia also makes sure she always carries flyers and samples with her.

Idalia's been with JAFRA for 10 successful years, she is a single mom and her daughters are her inspiration.

Achieving Your Goals through Time Management

It's easy to let schedules go out the window during the summer. Do you know why savvy business women like Idalia don't? Because they know that there would just be too many missed opportunities!

This Summer, Set Up Regular Power Hours

So many calls to make, so little time. But you'll be amazed at what you can accomplish in just one Power Hour on the phone! Divide it into these 15-minute call segments:

1. Scheduling Parties & Sponsoring Interviews
2. Contacting Potential New Consultants
3. Getting Referrals
4. Taking Reorders

"When your Clients hear your voice, it helps solidify your business connection. At Parties, I tell New Clients that when they purchase a JAFRA product, they purchase me, too. During my Power Hour calls, I remind Clients that I am ready to take care of all their JAFRA needs and give them the personal attention they deserve."

Start using this one easy tip to manage your time year round. Soon, you'll wonder how you ever managed without it!
