One sentence summary:

The new Revitalize All-In-1 Serum replaces the 3-step system with faster, more visible results and the BioLab serums are stronger and more targeted.

Can I use Biolab + All-In-1?

Yes! You can combine BioLab serums with the All-In-1 Face Serum.

The All-In-1 gives you hydration, firmness, radiance, and texture benefits in one step.

BioLab serums are designed to boost specific concerns, so you can layer one BioLab serum on top if you want extra support — for example, dark spots, firmness, or texture.

The key is:

- ✓ All-In-1 = your daily base serum
- ✓ BioLab = your targeted booster

Use no more than one BioLab serum at a time for the best results.
