# Indulge in the Royal Coconut Body Ritual

## 1. Polish — Body Scrub

Begin your ritual by gently exfoliating with the body scrub. Massage onto damp skin in circular motions to smooth, renew, and prepare your skin to fully absorb hydration.

## 2. Hydrate — Body Lotion

Apply the body lotion all over your body to deliver lightweight, hydration. It leaves your skin feeling soft, fresh, and comforted.

## 3. Deep Nourish — Body Butter

For areas that need extra care, layer the body butter. Its rich texture melts into the skin, providing deep nourishment and long-lasting softness.

## 4. Seal & Glow — Body Oil

Lock in moisture. Smooth a few drops over your skin to enhance radiance and leave a silky, luminous finish.

## 5. Care On-the-Go — Hand Cream

Complete your ritual by applying hand cream. Keep it with you to maintain soft, hydrated hands throughout the day.

Inspired by coconut oil—an ingredient long associated with intense hydration and deep nourishment.
