3 STEPS WE'RE TAKING NOW
FOR A BRIGHTER TOMORROW**

1

VISION

Our Green Team is harnessing our passion to push for cleaner and more eco-conscious business decisions.

2

EDUCATION

Our Sustainability Training Program will educate employees and Consultants on sustainable packaging, recycling and more.

3

ACTION

Our Clean Beauty Principles are helping us create cleaner formulations for our new products and top-selling favorites.

JAFRA CARES ABOUT CLEAN

At JAFRA, we care about our beauty consultants, customers, and employees. We know that you have high expectations, and so do we. At JAFRA, our standard of clean beauty is defined by an emphasis on safety, efficacy, ingredient transparency and sustainability.

JAFRA CARES ABOUT SAFETY & EFFICACY

To achieve our standards of safety and efficacy, we qualify all new raw materials and ensure they meet or exceed our requirements. Every JAFRA formulation base is tested for safety then reviewed by a toxicologist. Our products comply with regulations in the United States, European Union, Mexico, and Indonesia. JAFRA Manufacturing is both Halal-certified in Indonesia and registered with the FDA. JAFRA does not test its products on animals.

JAFRA CARES ABOUT INGREDIENT TRANSPARENCY

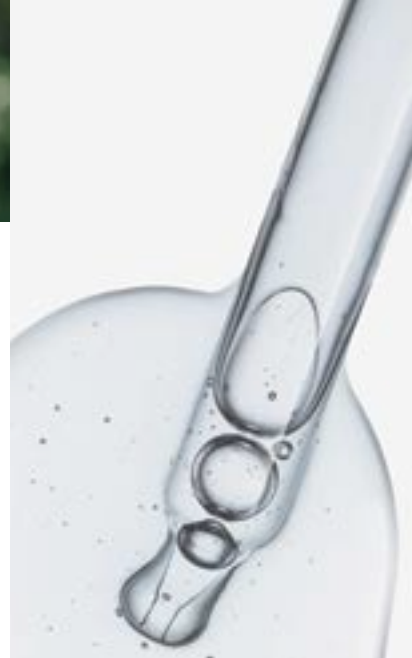

Our JAFRA Cares List is an ever-evolving list of ingredients that we choose not to use in our products. Due to the complexities of the beauty industry, technically unavoidable trace levels of an ingredient from the list may occasionally be detected in our products. We work hard to prevent this possibility. Guided by the latest research, we continually evaluate our JAFRA Cares List and challenge ourselves to do better.

JAFRA CARES ABOUT SUSTAINABILITY

We are actively working to use materials that have been recycled or are recyclable.

We aim to design for circularity and recently partnered with How2Recycle to add recycling instructions to our packaging.

By joining the Sustainable Packaging Coalition, we are doing our part to help reduce the amount of beauty product packaging that ends up in landfills.

JAFRA DOES NOT TEST ITS PRODUCTS ON ANIMALS

OUR JAFRA CARES LIST

- Naturally occurring formaldehyde
- Paraformaldehyde
- Methylene glycol
- Quaternium-15
- Naturally occurring mercury
- Dibutyl phthalate
- Diethylhexyl phthalate
- PFAS (long-chain per-and polyfluoroalkyl substances) and their salts
- m-Phenylenediamine
- o-Phenylenediamine
- Toluene
- Hydroquinone
- PABA
- Resorcinol
- Boric acid and its salts

Our motivation is your safety and wellbeing; and we keep working toward that goal.

JAFRA CARES ABOUT YOU

All JAFRA products are dermatologist tested; clinically tested for safety, allergy, and irritancy; and reviewed by a board-certified toxicologist. We endeavor to create products without proven or suspected toxic ingredients; and only include ingredients that meet or exceed our high standards. With the health of our environment at heart, we strive to develop product packaging from recycled or recyclable materials.

JAFRA CARES ABOUT RECYCLING

At JAFRA, we have high expectations for our products and our packaging. We care about our packaging choices because we care about you and the planet we all share. In partnering with How2Recycle® and the Sustainable Packaging Coalition, we are working toward two goals:

- making it easier for our packaging to be recycled
- keeping recyclable materials out of landfills

THE FUTURE OF SUSTAINABLE PACKAGING

JAFRA is thrilled to be part of the Sustainable Packaging Coalition. This membership-based collaborative is passionate about the creation of packaging that is good for people and the environment. JAFRA is actively exploring ways to create less waste and prioritize materials that are recycled, recyclable, compostable or reusable.

TOGETHER WE CAN MAKE A DIFFERENCE

As we stride forward, we ask you to partner with us on our path toward a more sustainable future. How can you do your part? Follow the How2Recycle® directions on our packaging, then discard or recycle the materials as directed. JAFRA cares about recycling, and we thank you for caring, too!

THE FUTURE OF RECYCLING

Our goal is to use How2Recycle® labels for all new products by the end of 2022, and for the remainder of the portfolio by the end of 2023. The How2Recycle® label system provides clear and accurate instructions for proper recycling, plus a web address that you can visit for more details.

WHY USE ROYAL MEN?

TREAT & HELP PREVENT RAZOR BUMPS

What are razor bumps and how are they formed?

The technical term for razor bumps is folliculitis. A razor bump forms when surface skin cells grab a sharp, curly hair as it grows from the beard line.

Instead of growing away from the skin's surface, the hair turns back toward the skin and becomes covered by new skin cells.

What are the consequences of razor bumps?

Razor bumps often look like acne. Left untreated, they can give skin a rough appearance. They may look like pimples, but razor bumps can't be removed by squeezing. They tend to bleed after shaving, and can cause scattered hyperpigmentation over time.

How can I help prevent razor bumps?

Gentle exfoliation with Men Post Shave Face Tonic is key. It helps remove dead surface skin cells that can cause beard hair to grow back toward the skin's surface and form razor bumps.

HERO INGREDIENTS

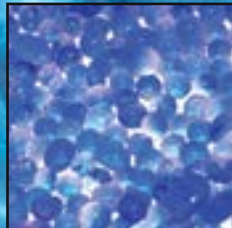

HONEY + CAFFEINE

Keep skin feeling soft, calm and hydrated.

SALICYLIC ACID + WITCH HAZEL

Gently exfoliate while minimizing ingrown hairs, skin irritation and redness.

SILICA + ADVANCED MOISTURE COMPLEX

Mattify, moisturize and protect for a smooth, fresh finish.
